Product description:

- Scalpel type modeling knife.
- Handle and blade vice made of metal.
- Comes with a knife case and 6 spare blades.
- Designed for accurate cutting of paper, film and other thin materials.
- High quality
- Precise cutting - The scalpel-type modeling knife is designed for accurate cutting of paper, film and other thin materials. Its narrow and sharp blade allows precise cutting of even the smallest details.
- Comes with a case and spare blades - The scalpel-type modeling knife comes with a knife case and 6 spare blades. This makes it easy to store and transport the knife and have spare blades when needed.
