**Product description:**

ARTS frame coloring book. Painting can become our hobby. We can start by painting simple pictures, or by coloring the work of a famous painter. With the Arts series of products we become real artists.

Products from the Arts Frames series are a great start to an art adventure. Painting is an ideal way to relax, to develop creativity and imagination. It's a way to relieve stress, to calm down, to take a moment's rest from the fast-paced world around us. It's a way to unload emotions and transfer them to paper.

Art Frames are coloring books made of thick cardboard, which by their appearance resemble a painting. They don't wrinkle from water and accept paint beautifully. When you finish painting a particular work of art, you can hang it on the wall. Such a self-painted reproduction is sure to be an original decoration of the room.
