Product description:

- Painting with dots is a unique coloring book in which pictures are created using small dots.
- The Kidea set includes a coloring book with 10 sheets with pictures of various vehicles and 5 colors of double-sided markers with stamps: red, green, blue,

yellow and black.

- The tip of the markers is rounded and short, which makes it easier to paint dots on the pictures.
- The stamps on the other tip of the marker are self-inking, so you don't need an extra ink pad, and they come in interesting designs such as stars and leaves.
- Dot painting is a technique that develops a child's hand-eye coordination, improves manual dexterity, teaches coordination and, above all, develops imagination.
