Product description:

- Painting with dots is a unique coloring book in which pictures are created using small dots.
- The Kidea set includes a coloring book with 10 sheets with magical pictures of fairies and 5 double-sided markers with stamps in pastel colors: pink, blue,

purple, yellow and green.

- The tip of the markers is rounded and short, which makes it easier to paint dots on the pictures.
- The stamper on the other tip of the marker is self-inking, so you don't need an extra ink pad, and they have girly, delicate designs such as flowers and bows.
- Dot painting is a technique that develops a child's hand-eye coordination, improves manual dexterity, teaches coordination and, above all, develops imagination.
