Product description:

A3 silver colored technical paper is an excellent choice for anyone looking for high-quality materials for art, craft projects or decoration. The package contains 25 sheets of standard A3 size, making it convenient and practical for everyday use.

The paper is characterized by an intense metallic silver color, which is eye-catching and gives any project an elegant and striking look. It is ideal for cutting out, folding and creating original invitations, greeting cards or other creative works.

Thanks to its weight, the paper is stiff enough to ensure stability during processing, while at the same time flexible, which facilitates all applications. The product is compatible with styluses, markers and other art supplies, making it an ideal support for artists and hobbyists.

Choose A3 silver colored technical paper and let your creativity run wild, creating unique projects that are sure to impress!

- Format - A3
- Number of sheets - 25
- Weight between 160g and 220g - there is always one weight in one package and we try to make it as close to 160g as possible, but in the absence of this weight can be higher , there is no choice of weight.
- Please note between production batches shade may vary a tone or two
- The paper is silver on one side, the other side is white.
- Silver matte paper
- Due to the nature of the paper, it may have a slight scratch that occurs when moving the paper on the countertop of the production machine, and this is not a defect.
