Product description:

- **Without wooden binding**
- The fabric marking crayons are in the form of a cylinder with a diameter of 9 mm and a length of 85 mm, and are without a paper wrapper.
- They are used for writing on fabrics.
- When writing, they leave a continuous trace, do not dirty hands, are resistant to temperature and light.
- They are also resistant to breaking.
- The trace made on the fabric is clearly visible.
- From some fabrics the crayon trace can be difficult to remove.
- They are used in textile factories for marking fabric and yarn samples and in tailoring shops.

-
- They can also be used successfully by amateur tailors at home.
 - Sales unit - 10 pcs
