## Product description:

- Optimal glue for bonding rubber, natural and artificial leather, fabrics made of natural raw materials, felt, ceramics, glass, carpets, wood, cork etc. and combinations of the above-mentioned materials with each other.
- The resulting joint is resistant to the aging process and water, is characterized by high strength and very good flexibility.
- Butapren - a trade name of a solvent-based adhesive, the main bonding component of which is chloroprene rubber. It also contains acetone, toluene, and gasoline.
- This glue is mainly used for joining rubber, natural and artificial leather, artificial and natural fabrics and felt.
- It is mainly used in the footwear industry as it provides

---

durable, waterproof and flexible joints.
