Product description:

- Optimal glue for bonding rubber, natural and artificial leather, fabrics made of natural raw materials, felt, ceramics, glass, carpets, wood, cork etc. and combinations of the abovementioned materials with each other.
- The resulting joint is resistant to the aging process and water, is characterized by high strength and very good flexibility.
- Butapren a trade name of a solvent-based adhesive, the main bonding component of which is chloroprene rubber. It also contains acetone, toluene, and gasoline.
- This glue is mainly used for joining rubber, natural and artificial leather, artificial and natural fabrics and felt.
- It is mainly used in the footwear industry as it provides

durable, waterproof and flexible joints.
