Product description:

Rubber bands are widely used in industry, small-scale manufacturing, food industry, agriculture and horticulture. Also in modeling, offices, banks, pharmacies, household and many more.

The features of rubber bands, thanks to which they are used in so many different fields, are:

- resilience
- flexibility
- softness, thanks to which the product with which the eraser is in contact will not be damaged
- not conducting electric current
- low price, compared with substitutes
- undergoing natural decay

Collective package: **1 kg**

The colors of the rubber bands: green, white, red (the color is randomly selected - depending on the current stock levels)
