Product description:

- Sculptural clay is the oldest plastic material known to man
- our clays are fully ecological, do not contain any ceramic additives, therefore they are recommended for working with children
- clays can be modeled, carved, imprinted, cast in plaster molds and shaped on a wheel
- They are perfect for art classes and occupational therapy workshops
- clay is a reusable material, after drying it is enough to pour water on it and after 24 hours it can be used again
- in order to fix, the clay should be fired in a ceramic kiln at a temperature of 850-1200 ° C
- after firing or drying it can be painted with Mona paints.
