**Product description:**

- **Without a wooden frame**
- Textile marking crayons have the form of a cylinder with a diameter of 9 mm and a length of 85 mm, they are without paper wrap.

- 
- They are used to write on fabrics.
  - When writing, they leave a continuous mark, do not stain your hands, and are resistant to temperature and light.
  - They are also break-resistant.
  - The trace made on the fabric is clearly visible.
  - On some fabrics, the pencil mark may be difficult to remove.
  - They are used in textile factories to mark fabric and yarn samples as well as in sewing workshops.
  - They can also be used successfully by amateurs of tailoring at home.
  - Sales unit - 1 pc
