Product description:

- The sensational white Hi-Polymer ZEH10 pencil eraser is a well-liked and extremely popular model. Made of carefully selected raw materials, it is characterized by exceptional flexibility that will appeal to the youngest users and professionals. It will quickly, efficiently and neatly eliminate unwanted errors, wrong calculations, uneven patterns.
- It works without the need for strong pressure, it is comfortable and pleasant to hold and maneuver, reaching the most difficult corners of the paper.
- This model meets the most demanding requirements - it does not irritate the paper, does not disturb its structure, leaving notebooks, documents and notes in perfect condition.
- All these parameters are confirmed by the PZH HŻ / 12985/01 certificate, which proves the high quality of the rubber.
- Eraser zeh10 is larger than zeh5

It cleans itself

- Hi-Polymer is an extremely economical product, it does not crack, does not get dirty, and even has the ability to self-clean, leaves little clippings, taking care of the aesthetics of notes and order on the desk. Wherever the frequency of pencil use increases, it is worth getting this model: at home, at school, at university and in various studios (graphic, technical and artistic).
