Product description:

Easily washable watercolor paints with very high efficiency. They work well when learning to paint. They can be the perfect gift for a little artist. Thanks to the high resistance to light, the colors will not fade and the works of art will retain their intense colors for a long time.

Do you know that...?

The wet-on-wet technique consists in wetting all the paper and then applying paints that can freely penetrate and flow, giving a soft contour line.

- 12 colors
- Easily washable
- Intense colors
