Product description:

- The edding 4200 pens are dishwasher-safe marking of large surfaces and fine details without the risk of spilling ink.
- They are suitable for porcelain, ceramics and heat-resistant glass.
- The water-based pigment ink dries quickly and can be washed and repaired before heating.
- The ink is particularly lightfast.
- After baking in an oven at 160 ° C, the pattern on the porcelain is resistant to washing in a dishwasher at 50 ° C.
- The flexible brush tip, 1-4 mm wide, is ideal for decorating ceramics and porcelain.
