**Product features:**

Type of tip: round

**Product gallery:****Product description:**

- Foil pen for special applications such as coated surfaces, optical glass, laboratory glass, where other pens do not stick to the surface and run off.
- It does not smear and is water resistant on most surfaces.
- Quick drying, also ideal for left-handed people.
- Intense colors, practically odorless.
- Xylene and toluene free ink.
- Extremely fade-resistant (black for 7 years on smooth surfaces, red for a year, used on paper for much longer).
- The black color is resistant to weather conditions.
- Resistant to high temperatures up to 250 ° C.
- Cap with a clip.
- The housing and the cap made of PP guarantee high resistance to damage.
- Can be used while flying - automatic pressure equalization prevents the pens from spilling ink during the flight.
