**Product description:**

- A ready-to-use plastic mass with the consistency of a dough, hardening in the air.
- Designed to make flat ornaments as well as figurines, knick-knacks.
- Patterns can also be imprinted on smooth surfaces or various shapes can be cut out with molds.
- It resembles real porcelain with the delicacy and permeability of light.
- If necessary, moisten your hands with olive oil or hand cream while modeling.
- After drying, it can be painted with Astra paints or varnished with e.g. acrylic binder.
- The wet mass can be colored with paints or you can add glitter.

- 
- The drying time depends on the thickness of the objects and the drying conditions.
