Product description:

- Permanent marker N860 effectively and permanently marks selected spaces.
- The cut tip with a solid structure (made of acrylic fiber) feels confident on almost any surface: metal, glass, plastic, rubber, thick paper, wood, marking them with a 4.5mm x 1.2mm thick line.
- High-quality ink with an undeniable power of positive impact colors red, black, green or blue. The N850 is a high-quality certified product - it meets the ISO 9001 standards.
- Free of Xylene and Toluene harmful substances, it safely

helps in various specialized activities: product marking, facilitating inventory processes, emphasizing advertising content, etc.

- It will be useful in the office, factory and studio, dedicated to technicians, graphic designers and logisticians.
- Thanks to the proportional structure of the body, it is well-held in the hand and guides it reliably on surfaces that are not always easy and accessible.
