Product description:

8 finger paints with stamps + brush, it is a set of eight colors: green, blue, red, yellow, orange, brown, white and black. The paints are in jars with a puzzle base, so the child gains an additional attraction in the form of puzzles for arranging and combining colors. On each cap you can find a stamp with different shapes: fish, ducklings, clovers, bird, moon, teddy bear, apples, stars. The paints have passed very restrictive laboratory tests, which allows even young children to use the products, exercise their manual skills and stimulate sensors.

Do you know that...?

Finger painting is a great gymnastics for children's hands and a very good preparation for learning to write.
