ICONIC PASTELS IN AN EXCELLENT COLOR PALETTE

PHN oil pastels with a round cross-section are an excellent product, valued by millions of users around the world. Plastic phenomena they generate determine their phenomenon and popularity. The technology used here supports creativity, stimulating users to artistic activity, regardless of age and gender. It is thanks to the soft, creamy texture and easy spreading that pastels have an endless range of non-standard possibilities, facilitating interesting plastic treatments. Pastels inspire to create thanks to a wide range of colors (12, 16, 25, 50 - to choose from), including even the less obvious shades and colors. Creating shadows, shading, introducing backgrounds, grading the width and intensity of the line, mixing colors - these are just some of the phenomena that are easy to achieve when working with pastels. Strong and juicy colors that do not fade will leave the drawing fresh and expressive.

For children and professionals

Pastels are a product that supports the development of manual skills of every child, arouses their curiosity, sensitizes them to colors, and helps in unhampered identification of space. They have the PZH HŽ / 07948/96 certificate, therefore they are completely safe, extremely easy and pleasant to use. They are an invaluable tool for improving the art of drawing, they guarantee creative and individual organization of time not only for the youngest. PHN oil pastels are a modern technology that supports inventiveness, multiplying an endless string of creative inspirations. Dedicated to amateurs and professionals drawing on canvas, paper or boards. Perfect both dry and wet, in standalone and combined technique. They cannot be absent from school, kindergarten, home and studio.
