  - The book is an excellent teaching aid for preschool and early school education teachers, but it is also perfect for independent play.
  - The day gets longer, flower buds are blooming, bees wake up, storks come from across the ocean - it's time for a spring coloring book! 32 pages of motifs and symbols associated with this season. Your child will love to fill the drawing of a butterfly or grasshopper with colors. The book will make them aware of the beauty of nature and encourage them to play outdoors.
  - Under each drawing, there is a pattern, an additional exercise, thanks to which the toddler consolidates the basic shapes.
