Brick Trick ceramic blocks

Brick fun!

Become a constructor using real bricks and wood! In the manual you will find extensive tidbits straight from the construction site. Find out how to spice up your design with lots of interesting ideas and solutions. Build according to the instructions or use your imagination to create your own unique structure. You can also combine several buildings to create the atmosphere of a village, city or the Middle Ages. Use the attached construction plans or use your imagination to create a unique structure. Play with the included pieces straight from the rural world! This is not the end of the fun! Dissolve the structure in the water and continue building using the same bricks again! The set includes: real bricks, glue, wooden boards, decorative elements, pieces, a stand, a sticker and instructions!
