Product description:

-
- Smooth writing, drawing and erasing on touch screens with (EMR) technology
 - Ergonomic triangular shape provides natural writing and drawing experience
 - Precise 0.7mm point and 4,096 levels of pressure
 - Soft digital eraser
 - No charging or pairing
 - Only the pencil tip is recognized and the hand is ignored.
 - Wood content from PEFC-certified German forests
 - Made in Germany
 - Works only with displays equipped with an electromagnetic resonance (EMR) digitizer.
 - A key component of the Noris digital is an innovative EMR cartridge from our partner WACOM.
 - With this technology, the pen uses the electromagnetic field generated by the display of the end device (tablet, smartphone or notebook) and interacts with it inductively.
