Product description:

- Smooth writing, drawing and erasing on touch screens with (EMR) technology
- Ergonomic triangular shape provides natural writing and drawing experience
- Precise 0.7mm point and 4,096 levels of pressure
- Soft digital eraser
- No charging or pairing
- Only the pencil tip is recognized and the hand is ignored.
- Wood content from PEFC-certified German forests
- Made in Germany
- Works only with displays equipped with an electromagnetic resonance (EMR) digitizer.
- A key component of the Noris digital is an innovative EMR cartridge from our partner WACOM.
- With this technology, the pen uses the electromagnetic field generated by the display of the end device (tablet, smartphone or notebook) and interacts with it inductively.
