Product description:

- The set consists of 6 colors of paints in basic colors: red, yellow, blue, green, white and black, which allows you to freely mix colors and get any colors you need, e.g. mixing yellow with red gives a beautiful orange, red with white and a little bit blue gives pink.
- It is also worth paying attention to the number of paints in the package - it contains over 20 g of paint, so it is enough to paint many different styles.
- The paints are safe to use thanks to laboratory tests.
- The paints have a very precise brush that allows you to draw a precise contour and larger surfaces can be covered with an applicator.
- Package dimensions: 17.5 x 20 x 1.5 cm
