Product description:

- The tape consists of a tissue paper carrier soaked and laminated on both sides with acrylic adhesive.
- The flexible carrier allows application on rough surfaces.
- Pieces of tape easily tear off without the need for scissors.
- Thanks to its extremely thin thickness, the tape is perfect for electronics manufacturing, as well as for cutting and backing thin and delicate materials.
- It is also perfect for bookbinding work and in paper and printing shops.
- The tape can also be used for the production of stickers and self-adhesive labels.
- High-quality acrylic adhesive is characterized by high initial adhesive strength and provides good adhesion, also to more demanding materials such as PE, PP, varnishes, smooth powder paints.
- Tape width: 24 mm
- Tape length: 10y = 9.1 m
- Quantity: 1 roll
